Both in textile promotion and in corporate fashion wear JAMES & NICHOLSON and myrtle beach are meanwhile among the best-known and most popular brands. The product diversity of the two product lines is unparalleled and is expanded every year by around 40 fashionable novelties. In the fields of sports, leisure, business and work there is hardly any top or headgear which is not included in the diverse product line.

JAMES & NICHOLSON stands for functional sportswear for almost every sport, for trendy leisurewear and jackets as well as for classic business wear and sturdy workwear. For all everyday situations JAMES & NICHOLSON offers suitable clothing for ladies and men. Most basics are available in almost 40 colours as well as in outsizes up to 6XL.

Fashionable and functional headwear as well as trendy accessories, which can be combined very well with the JAMES & NICHOLSON collection, that is what myrtle beach stands for. The wide range of cap shapes and cap designs is unique and at the same time innovative, for a few of the products of myrtle beach are prize-winning. In recent years the Promotional Gift Award has been won several times by clever cap inventions which have definitely enriched the promotional market. The headwear brand is extended by trendy scarfs, gloves and the large spa collection, which offers terry products for sports and the catering trade in more than 20 colours.

The storage capacity of the brands is 20 million pieces, 98% of which are always available. Extremely short delivery times and a smooth handling of direct shipment are a great advantage JAMES & NICHOLSON and myrtle beach offer their customers. Service takes top priority – in day-to-day business the focus is always on the customer. That is why the quality of the product lines is the most important thing of the company philosophy – from inception to completion and beyond. JAMES & NICHOLSON and myrtle beach are manufactured with social and ecological responsibility. All the textiles are REACH-compliant and manufactured according to Oeko-Tex® Standard 100. Since 1999 social and environmental aspects have been integrated into the company code of conduct. They are submitted to strict controls.

This year too, the new collection radiates a zest for life: always up to the minute in business and therefore trend-, quality- and price-conscious! With JAMES & NICHOLSON and myrtle beach several price levels from low budget to premium will guarantee excellent value for money for the customer.

# , +!) " \* ! **\$< \$&\$** 3

As members of the, BSCI/Business Social Compliance Initiative' we commit ourselves to implementing the BSCI code of conduct as part of our business relations with our manufacturers and thus to improving the working conditions within our supply chain and to producing our textiles fairly. This includes our clear commitment to the empoyees' right to freedom of assembly, protection against discrimination, and an adequate remuneration, that is, at least the statutory national minimum wage.

Another central component is the occupational safety regulations. That is how we guarantee that the occupational safety regulations of the ILO (International Labour Organisation) are met. Child labour, forced labour or precarious jobs are not tolerated. Several social compliance departments in the countries of production test all the factories thoroughly and make sure that these conditions are met.

All the products of myrtle beach and JAMES & NICHOLSON are produced in an environmentally friendly way.

The merchandise is regularly tested by certified testing institutes in the countries of production regarding the given parameter. Moreover, in cooperation with SGS, Testex, Hohenstein and other renowned institutes the quality is continually controlled.

This standard guarantees that textile and non-textile product components pose no threat to health.

We assure you that when manufacturing our myrtle beach products and JAMES & NICHOLSON textiles we meet the obligations of the REACH-regulations.

When manufacturing garments of myrtle beach and JAMES & NICHOLSON, the Organic Content Standard is a standard for verifying and tracking the exact content of organically grown materials in a final product. Among other things, the superordinate 'Content Claim Standard' defines with OCS the traceability of merchandise as well as the transparency within the production chain.

Our goal is for both our products and our corporate values to be geared toward sustainability. We therefore want to take responsibility for the emissions that printing our catalogue produces and give something back to nature in the process. That's why we've become a ClimatePartner and are producing a climate-neutral catalogue. As a ClimatePartner, we've been able to offset the 226,800 kg of CO2 needed to print this year's catalogue and consequently help plant new forests throughout Germany.

The effects of climate change are being felt all over the world, and Germany is no exception: Forest fires are destroying vast swathes of woodland and parasites are spreading rapidly in these now depleted areas. Species of tree such as the spruce are suffering from drought stress and heat damage because their shallow roots cannot reach the deeper layers of the earth that contain water. This is why we support afforestation and want to see more forests in Germany transformed into mixed forests.

Regional projects protect natural habitats such as native forests and alpine areas, while also contributing towards green agriculture. These projects are important for adapting to climate change. Projects in Germany, Austria and Switzerland generally do not produce certified emission reductions. This is why ClimatePartner combines regional projects with international climate protection projects, as this enables both climate neutrality and regional engagement.

**Fair, transparent, harmless:** The Organic Cotton collection includes a wide range of **sustainably produced** organic cotton clothing for every **fair fashion lover.** The Organic Cotton collection by JAMES & NICHOLSON and myrtle beach impresses with a **high quality** combined with **modern cuts** and **tasteful details.** 

The **naturalness** is not only visible but also perceptible. Knowing that the components of the garment are made of **sustainably grown cotton** and that **no genetically modified fibres** are used conveys a completely **new attitude towards life.** 

When manufacturing garments of **myrtle beach** and **JAMES & NICHOLSON**, the Organic Content Standard is a standard for verifying and tracking the exact content of organically grown materials in a final product. Among other things, the superordinate 'Content Claim Standard' defines with OCS the traceability of merchandise as well as the transparency within the production chain.

Caps with this label are ideal for printing and embroidering. The construction of the caps leaves a lot of space so the cap is easy to decorate, with the logo presented to perfection.

#### ! " #\$%&\$! '( '%) \*+\*, #" - #\$! '( '%) \*% \*

Functional textiles must have the ability to transport moisture from the skin to the fabric surface as fast as possible. Permeability shows how much steam in grams can evaporate on a surface of 1 m<sup>2</sup> within 24 hours. The higher this figure, the more breathable the textile is.

#### 1 \$%#" \*2. (0-3

The ability to withstand water pressure without moisture penetrating into the material is given by the water column (mm). The minimum standard is a water column of 1,500

PET bottles are recycled to create a new fashion. Plastic bottles collected in the sea are crushed, melted down and spun to yarn again, which is sometimes completely integrated into the production. Thus for producing the workwear cap MB6234 about 3 half-litre bottles are recycled and for the new sport T-shirt JN519

**%**\$, #4\*5#\$- 5

To avoid moisture penetrating into the fabric, seams and stitches can get taped. Taped seams are 100 %water-proof.

 ${\tt CORDURA}{}^{\tiny\textcircled{\tiny 0}} \ \ \text{is a very sturdy, textured polyamide}$ fabric, which is extremely tear- and abrasion-proof. Special varus specially developed weaving techniques dyeing methods and additional textile finishing ensure that products with CORDURA® can be used as durable and comfortable workwear.

0.6\*>?@

The UPF (Ultraviolet Protection Factor) indicated on UV-protective clothing shows how much longer somebody wearing these clothes can stay in the sun without suffering any damage to health. Therefore, the UPF-indication on textiles corresponds to the sun protection factor of sun-screens. This is based on the self-protection time of the skin, which varies considerably depending on the individual skin type

TOPCOOL® polyester fibres perfectly absorb moisture due to their special surface and evacuate it quickly to the outside where it can evaporate. The skin stays comfortably dry and a constant temperature level of the body is maintained.
